Corporate Events

Perfume Studio experiences are designed to entertain. Suitable for ladies and gentlemen, our range of activities are perfect for client entertainment, team building and corporate away days with each guest taking home a fragrance to remember their day. Fragrance design can be the focal point of the day, or can be integrated into your event as part of the entertainment mix.

All experiences are available nationwide for any number of guests.

A Unique Concept

We specialise in the design, development and creation of tailor-made couture scents. Capture the essence of you in a signature scent you can keep and treasure forever.

The idea is simple: if Victoria Beckham, JLO and a host of other celebrities can create their own fragrance, then why can't you? At The Perfume Studio experience, a trained perfume stylist guides you through a fun and informative fragrance journey. They will help you choose your perfect combination from our range of exquisite blends to create your individual unique scent.

Our Master Perfumer has spent years creating our exquisite blends sourced from the world's finest ingredients. From musky base notes to fruity top notes, our fine fragrance blends represent the entire spectrum of a Master Perfumers' palette.

Fragrance Design Masterclass

Gold

Perfect for client entertainment or as a rewarding treat for your staff, a Perfume Stylist will take you on a fragrance journey offering the opportunity to sample our wide-ranging fragrance blends.

Suitable for: **10-200 guests**

With our guidance, each guest will have the opportunity to create their own bespoke fragrance and leave with a bottle or atomiser filled with their unique signature scent. Each unique fragrance formulation is recorded online at theperfumestudio.com where the designer can re-order at any time from a selection of exciting refill options.

Perfume branding is an increasingly popular way to add value to a brand and enhance your corporate image

75% of the emotions we generate are affected by scent. Smell has been shown to bypass mental judgment and interpretation and lead straight to the centre of our emotions. A tailor-made signature fragrance can enhance memories, stimulate and stir emotion.
